Based on Moghaddam (2009, p. 512), Without doubt the most prevalent type of relationship found iversitas Brawijaya between psychology and literature is the use of psychology as an iversitas Brawijaya means for interpreting literature. As is evident from the contents of iversitas Brawijava Psychology and Literature, a journal published since 1951, it is psychodynamic psychology that is most commonly used in the analysis of literature. When these make conflicting demands upon the poor ego, it is understandable if it - if you - feel threatened, fell overwhelmed, feel as if it were about to collapse under the weight of it all. This feeling is called anxiety, and it serves as a signal to the ego that its survival, and with it the survival of the inversitas Brawijaya whole organism, is in jeopardy. From the explanation above, we can conclude that anxiety is the fear or Universi unpleasant feeling of people who is in conflicting situation such as feelingsitas Brawijaya threatened or overwhelmed. As a result, the ego uses defense mechanism to Universit reduce anxiety. Freud is dividing anxiety into three, they are realistic anxiety, sitas Brawijaya Universi neurotic anxiety and moral anxiety.
