The background of the study it as Brawijava Universitas Brawijaya Universitas Brawijaya explains the general idea of the topic. The problems of the study are the Universitas Brawijaya Universitas Brawijaya Universit formulation of the questions that lead this study to achieve its objectives. The Brawijaya ijaya Universitas Brawijaya Universit definition of key terms is used to explain clearly about the meaning of some sitas Brawijaya specific words. hiversitas Brawijaya Universi 1.1 Background of the Study Language is one of the important things in the world. Language and Universit community has a strong relationship. People need a language to make social sitas Brawijaya interaction with others. To show the relationship between language and society, Universit Trudgill (1983, p.13) argues that languages and society are tightly connected Sitas Brawijaya Universi because society is any group of people who are drawn together for a certain stras Brawijaya purpose or purposes. They need a language which is used by the members of University particular society to reach all of their certain purposes. From this statement, it can sit as Brawijaya Universities concluded that languages take part as the main requirements for human being Universitas Brawijaya Universitas Brawijaya Universitas Brawijaya Universitas Brawijaya Universitas Brawijaya rawijaya Universitas Brawijaya Universitas Brawijaya Universitas Brawijaya Universitas Brawijaya Universitas B Nowadays, people build or create communities based on the same interest, sitas Brawijaya religion, region and many others. Therefore, many people speak differently from Universit others in a language. In other words, people use specific language terms to sitas Brawijaya Universitas Brawijaya rawijaya

To study about language uses in society study ersitas Brawijaya Universitas Brawijaya Universitas Brawijaya Universi people need the understanding about sociolinguistics. Sociolinguistics is the sites branch of linguistics which discusses the connection between languages and University Society, WHudson U(1996) has cited by Wardhaugh (2006, Vip.13), defines it as Braw Universitas Brawijaya University statement, it can be said that the connection between languages and society are Universit quite connected. Therefore, Sociolinguistics is the key to investigate any question sitas and phenomenon about language which occurs in social life. Moreover, the use of language is growing wider. It is one of the evidences Universi that people use language not only for communication but also for many things. Some people use the language for activities in community, sports, politics, trading Universitand many others. Since people become a member of society, they interacts it as differently with the others who have the same interest. Wardhaugh (2006, p.52) explains that the style of speaking, word choice, and terms of word conversing are stars Br highly influenced by social requirements. It shows that people in the social community need a certain language to interact with the others in same social Universit community. This leads to the fact that language is divided into some varieties. Sitas Bi One of the varieties of language that is used in a community is registers. Universitas Brawijaya (2006, p.52) defines "registers are sets of language items Universitas Brawijaya Universitas Brawijaya Universitas Brawijaya Universitas Brawijaya Universit associated with discrete occupational or social group". On the same page, sit as Brawijaya Wardhaugh adds that surgeons, airline pilots, bank managers, sales clerks, jazz fans, and pimps employ different registers.
