

CHAPTER VI

CONCLUSION AND SUGGESTIONS

This chapter presents the conclusion and suggestion related to this classroom action research based on the research findings and discussion.

6.1 Conclusion

From the research findings and discussion that had been elaborated in the previous chapters, there are some conclusions after having conducting Discovery Learning Method. First is the implementation of Discovery Learning Method which successfully improves students' reading comprehension in the descriptive text with the criteria of success that had been accomplished at the end of the cycle. It was shown by the improvement related to the number of students who got equal score or higher than 75.

Second, Discovery Learning Method had also increased the students' interest in reading during teaching and learning process since they could understand a text well, gave the teacher attention, and gave questions for the teacher related to the material based on their own word towards some vocabularies that the students had during the teaching and learning process. It can be seen also from the questionnaire that the students were interested in comprehending descriptive text by using Discovery Learning method. The students looked more excited about the material and less of shyness in every step of Discovery Learning method. In conclusion, Discovery

Learning Method was able to help students in improving reading comprehension of X accounting 1 students of SMK Negeri 12 Malang.

6.2 Suggestion

In the result of this research, the researcher would like to give some suggestions that hopefully will be useful, especially as follow:

a. English Teacher

This is suggested for English teacher who has difficulty in teaching reading comprehension can apply Discovery Learning Method to solve the problem. This method can also be used to teach other genre based text such as recount text and narrative text.

b. Further Researcher

This is suggested for further researcher for those who are interested in applying Discovery Learning Method as their method to solve reading comprehension's problem. The further researcher should prepare good activities and use the material by guiding them in doing every step of Discovery Learning method. So, it makes the students to become more active and confidently involve in implementing Discovery Learning Method.
