

SUMMARY

Moch Irfan Sulistianto, Criminal Law, Faculty of Law, University of Brawijaya, April of 2014, THE EFFORT OF INVESTIGATOR TO REVEAL THE IDENTITY OF THE CRIMINAL SUSPECTED UNKNOWN HUMAN CORPSE (STUDY AT RESORT POLICE OF MALANG CITY), Dr. Ismail Navianto, SH., MH. Alfons Zakaria, SH., LLM.

In this paper the author raised about the efforts of investigators in uncovering the identity of the bodies of the alleged victims of crime (Studies in Malang City Police). The choice of the theme was based belangkangi by the discovery of the bodies of many cases without identity in the city of Malang, in this case the police were authorized to conduct investigations to seek and find an event that is suspected as a criminal offense in order to determine whether or not the investigation, one of the identity of a corpse alleged victim of crime. At the scene of the discovery of the bodies are not identification or identity so Malang City Police investigators make an effort to share in the disclosure of the identity of the corpse

Problems determined in this research are (1) How is the effort of investigator in revealing the identity of the criminal suspected unknown human corpse? (2) What factors are constraining the investigator in revealing the identity of the criminal suspected unknown human corpse?

The paper uses empirical juridical method with sociological juridical approach. Primary and secondary law materials are obtained from interview, while the literatures are acquired from field study. Analysis tool is quantitative descriptive which describes data for analysis and to answer the problems of research.

Result of research has shown that Resort Police of Malang City discloses the identity of the criminal suspected unknown human corpse (Study at Resort Police of Malang City) by taking latent fingerprint in the crime scene using technology of inafis and mambis, and also taking blood sample, sperm and remaining body of the corpse, or seeking for information from witness.
