Repository Universitas Brawijaya CHAPTER II Repository Universitas Brawijaya Repository Universitas Brawijaya Repository Universitas Brawijaya Repository Universita REVIEW OF RECATED LITERATORE tas Brawijaya Repository Universitas Brawijaya Repository Universitas Brawijaya Repository Universitas Braand RESEARCH METHOD versitas Brawijaya Repository Universitas Brawijaya Repository U In this chapter, the writer will explain about the theory, previous studies, and research method. The writer uses sociological approach and movie studies as Repositor Rep Reposit the basic theory for this research. The previous studies consist of two studies that Repository Universitas Brawijaya Repository Universitas Brawijaya Reposit writer use as reference for this research. In the research method, the writer will Repository Universitas Brawijaya Repository Universitas Brawijaya Repositexplain steps to do this research. Repository Universitas Brawijaya Repository Universitas Brawijaya Repository Universitas Brawijaya Reposit 2.1 Theoretical Framework: Sociological Approach to Literature Rewijaya Repository Universitas Brawijaya Repository Universitas Brawijaya Repository U In the society, there are various phenomena, values and norms. One of them Repository Universitas Brawijaya Repository Universitas Brawijaya are the ideas of how women and men are expected to act according to what social, Re behavioral norms. In this case, Masculinity is the kind of attributes that men hold, Reposit Repository Universitas Brawijaya Repository Universitas Brawijaya Reposit because it is considered appropriate for them. In addition, the masculinity concept Repository Universitas Brawijaya Repository Universitas Brawijaya Repositis change over time and depends on the society. Because this research discusses about masculinity, the writer will use sociological approach and masculinity theory Repository Universitas Brawijaya Repository Universitas Brawijaya Repositor analyze the issue in Logan movie. Repository Universitas Brawijaya Repository Universitas Brawijava Repository Universitas Brawijaya Repository ULiterary works often present the phenomena which happen in the society or Repository Universitas Brawijaya Repository Universitas Brawijaya Reposit the human nature. Albrecht (1954) argues that literature is a reflection of norms Repository Universitas Brawijaya Repository Universitas Brawijaya Reposit and values that became the part of society. There is an important thing that people Reposit have to know when studying sociological literature. People have to know the basic Repository Universitas Brawijaya Repository Universitas Brawijaya Repositioncept of sociological literature. This basic concept makes people study this Repository Universitas Brawijaya Repository Universitas Brawijaya

Repository Repository

Repository Universitas Brawijaya Repository Universitas Brawijaya⁸ Repository Universitas Brawijaya the important thing when study sociological Repository Universitas Brawiaya Reposit theory easily because they know Rei Reposit literature. Nurjaman, (2013, para. 2) stated, "the basic concept of sociology Repository Universitas Brawijaya Repository Universitas Brawijaya Reposit literature based on the proposition that literary works are written by an author, and Repository Universitas Brawijaya Repository Universitas Brawijaya Repository Universitas Brawijaya Reposit society." That statement explains if literature has relation with society. Society Repository Universitas Brawijaya Repository Universitas Brawijaya Repositistic is the place where people live, so there will be many phenomena which can Repository Universitas Brawijava Repository Universitas Brawijava Reposit happen and portrayed. So, it can be implied that literary work is a manifestation of society. Each society have their own rules, norms, purpose, or values that is Repository Reposit practiced and believed by the people. Repository Universitas Brawijaya Repository Universitas Brawijaya Repository Universitas Brawijava Repository U The writer limits the focus only on the American society. American society Repository Universitas Brawijaya Repository Universitas Brawijaya Repositiself holds particular model in social stratification, such as lower-upper class, Repository Universitas Brawijaya Repository Universitas Brawijava middle class, working class, etc. They also believe several values that represent the Rec Reposit characteristics of Americans, such as equality, individualism, and self-reliance, Repository Universitas Brawijaya Repository Universitas Brawijaya Reposit which have become the identity and affects the people's behavior. S Brawijaya Repository Universitas Brawijaya Repository Universitas Brawijaya Repository UNext, according to Kennedy, et al (1995), "Sociological approach is the Repository Universitas Brawijaya Repository Universitas Brawijaya Reposit critic examining literature in the cultural, economic, and political context in which Repository Universitas Brawijaya Repository Universitas Brawijaya Repository Universitas Brawijaya Reposit and often different cultures reflect values differently and to different levels of Repository Universitas Brawijaya Repository Universitas Brawijaya Repositemphasis. However, In recent years, there is also changes in the values which Repository Universitas Brawijaya Repository Universitas Brawijava affects the attitudes and beliefs of the members. According to Dale A. Brawijaya Repository Universitas Brawijaya Repository Universitas Brawijaya Repository Universita, Brain the traditional values seem to have change because of University in reality the traditional values seem to have change because of Reposit the modern society. In addition, he states that the change affects several aspects of Repository Universitas Brawijava Repository Universitas Brawijava Repositivalues especially toward the new generation, these include patriotism, moral, social Repository Universitas Brawijaya norms, religious issues, and the spread of gender confusion. Repository Universitas Brawijaya Repository Universitas Brawijaya Repository Universitas Brawijaya Repository The writer chooses sociological approach to analyze Logan's masculinity Repositions it is a part of gender issues. The approach that is used can also applied as a Reposition to analyze the masculinity disposition in the character. Masculinity itself is a Repository Universitas Brawijaya Repository Universitas Brawijaya Repositpart of gender issues. Therefore, it will be important to explore more about the Reposition gender roles, especially the masculinity. It will be elucidated further in the Reposit following sub chapter rawijaya Repository Universitas Brawijaya Repository Universitas Brawijava Repository Universitas Brawijaya Repository U In the society, there are ideas of how women and men are expected to act Reposit according to what social, behavioral norms have accepted. Specifically, there are Repository Universitas Brawijava Universitas Brawijaya Repository Reposingender roles that should be followed in order to fit with the society's standard. Repository Universitas Brawijaya Repository Universitas Brawijaya Repos However, it should be noted that this expectation of the society could vary substantially in each culture. According to Tyson (2006), traditional gender roles Reposito Repositor Reposit cast men as men as rational, strong, protective, and decisive, they cast women as Repository Universitas Brawijaya Repository Universitas Brawijaya Repositemotional (irrational), weak, nurturing, and submissive.
