

## **ACKNOWLEDGEMENTS**

All praise are presented unto The Almighty Allah for giving me golden opportunity to study in Brawijaya University and finishing this thesis. This precious moment gave me so many useful experiences enriching my life.

A very special gratitude goes out to my supervisors committee, Drs. Andy Fefta Widjaya, MDA, Ph.D and Drs. Fadilah Amin, M.AP, Ph.D for their support, valuable insight, and patience in assisting me and helping me for the work.

Big appreciation to all lecturers in Public Administration Master Program who gave me valuable science to improve my knowledge.

To my friends in batch 9 linkage programme: I will miss our screams of joy whenever a significant momentous was reached and how we support each other in joyful and sadness. Many Thanks!

I am grateful to have a very wonderful husband 'Mas Dudi' and my lovely daughter 'Bee', separated far away, and missed many wonderful moments. I owe you that much, baby. Thank you for allowing me reaching my ambition. My parents, and my siblings who have provided me through moral and emotional support in my life. I am also grateful to my other family members and friends who have supported me along the way.

And finally, last but by no means least, also to everyone who helped me creating this paper... it was great work with all of you during last 2 years.

Thanks for all your encouragement!
