

## SUMMARY

Danizar Robbi Firly, 2013, **Officer Effort for the Operation Care Eligibility To Motor Vehicle Safety Road Transport ( Studies in UPTD Department of Transportation Motor Vehicle Inspection in Situbondo Regency )**  
Dr . Mochamad Makmur , MS and Ainul Hayat , S. Pd , M.Sc.

Public transportation take hold of an important role in order to mobilize the community so their presence must also be considered. To support and protect the public interest in transportation issues, will be required one form of transport vehicle testing in order to maintain the safety and security of road transport , through the common tasks of government.

The purpose of this study is to describe and analyze the performance of officials in the Implementation of Motor Vehicle Inspection Service For Safety of Road Transport and the supporting factors and obstacles in testing motor vehicle in Situbondo regency . This type of research is descriptive qualitative . Analysis using the method of data analysis models Interactive ( Mathew B. Miles and A. Michael Huberman ) . As for the method of data collection is to use interview , observation and documentation.

From the results of this study indicate that the Motor Vehicle Inspection Organization in Situbondo regency have a good standard , clear procedures and mechanisms are concise and potential still to be developed . Additionally the course of testing depends on the ability of workers testing , time of completion and compliance costs in terms of accuracy duty service is performed quickly by default but in practice there are obstacles that can not run optimally. Suggestions from researchers need to test the addition of personnel in terms of testing given the quality of testing is expected . Also expected in the communication skills section administrative information needed by the public so that people can see what is not understood and not confusion . Need for socialization of service to the community is in general not fully understand the critical role of motor vehicle testing , to maintain the safety of road transport , pollution of air pollution and to prevent traffic accidents.
