

SUMMARY

Khoirul Fitrah Efendi, 2013, **Change of Status to Become Urban Village Rural within the Framework of Public Service** (Study In Dadaprejo Urban Village, District Junrejo, Batu City), **the Commission Chairman, Supervisor: Suwondo Drs, MS, and members: Ike Wanusmawatie S. Sos, MAP 152 + xviii**

The implementation of regional autonomy in many areas pose a wide variety problem relating with changes in status of the region, be it a change in into a municipalities An administrative city or town, or village changes into Urban, as happened in the change of status as the City Administrative Batu City in practice it followed by a change status of the village into urban, one of which is the change happened in the village of urban Dadaprejo be regulated through the Regional Regulation Batu City No. 13 of 2010. The purpose of this validation is to describe and analyze changes in the status of the village into urban in Dadaprejo well as to determine the condition of public services in the urban villages dadaprejo.

The method used in this study is a qualitative method. The focus of this study is the change in the status of the village into Urban Dadaprejo viewed of society initiative and the deal well as the role of village chief following his BPD (Village Consultative Bureau) in guarding the requirements changes associated with the the formation of urban villages public services are also the generated.

The results of this study showed that changes become Urban Village Status Dadaprejo in Public Services Framework generates maximum service not yet and needs to be improved including improvements to the service of the timeliness of service, courtesy and friendliness well as the lack of convenience in obtaining services related to location, space, places where development can not be fulfilled thoroughly after walking less than 4 (four) years. The process of changing the status of the village become urban villages dadaprejo generate normative changes in accordance with Law No. 32 of 2004 well as Permendagri No. 28 of 2006 on Establishment, Abolition, the Village Merging and Change Status to Become Urban Village.

However, in the implementation process of these changes generate changes that are empirically that a synergy between the Law No. 22 of 1999 to Act No. 32 of 2004 which is counterproductive, so this change as a consequence of the loss of village assets belong to the Batu city Governments is further empowered Dadaprejo into the Village, and change of structure of village autonomy into the city bureaucracy centered governance system that is above it.

Keywords: changes, the status of the village into urban villages, public service
