HAMBATAN SAMPING :				

The diagram illustrates a cross-section of a road. It features a central black horizontal line representing the road. On either side of the road are grey rectangular areas representing sidewalks. The distance between the outer edges of the sidewalks is labeled 'Ruang Manfaat Jalan' (Functional Road Space). The distance from the outer edge of the sidewalk to the outer edge of the building or tree line is labeled 'Ruang Milik Jalan' (Private Road Space). The distance from the outer edge of the building or tree line to the outer edge of the road is labeled 'Ruang Pengawasan Jalan' (Monitoring Road Space). At the ends of the road, there are yellow arrowheads pointing upwards, labeled 'A' and 'B' respectively. There are also small grey figures of people walking on the sidewalks.
