

## DAFTAR PUSTAKA

Ansys Release 14.5 Documentation

Anderson, T.L. 2005. *Fracture Mechanics : Fundamental and Applications*. Taylor & Francis Group.

Bannantine, J. A. 1990. *Fundamental of Metal Fatigue Analysis*. New Jersey : Prentice Hall Englewood Cliffs.

Beer, Ferdinand P., E. Russell Johnston, John T. DeWolf, David F. Mazurek. 2012. *Mechanics of Materials*. New York : The McGraw-Hill Companies.

Dowling, Norman E. 1999. *Mechanical Behaviour of Materials*. New Jersey : Prentice Hall Upper Saddle River.

Gunde. 2007. *Analysis of Fatigue Crack Growth Retardation Due to Overloading by Using AFGROW*. Department of Mechanical Engineering N.I.T. Rourkela.

Hosford, William F. 2010. *Solid Mechanics*. Cambridge University Press

Janssen, M., Zuidema J, Wanhill R.J.H. 2002. *Fracture Mechanics*. Netherland : Delft University Press.

Kailas, Satish V. 2004. *Material Science*. India : Dept of Mechanical Engineering Indiana Institute of Science.

Kim, Nak-hyun, Chang-Sik Oh, Yun-Jae Kim, Jong-Sung Kim, Dong Wook Jerng, Peter J. Budden. 2011. *Limit Loads and Fracture Mechanics Parameters for Thick-walled Pipes*. Korea University.

Mott, Robert L. *Machine Element in Mechanical Design 4th Edition*. New Jersey : Courier Westford Inc.

Predan, J., V. Mocilnik, N. Gubelj. 2013. *Stress Intensity Factors for Circumferential Semi-elliptical Surface Crack in Hollow Cylinder Subjected to Pure Torsion*. University of Maribor.

Stephens, Ralph I., Ali Fatemi, Robert R. Stephens, Henry O. Fuchs. 2001. *Metal Fatigue in Engineering*. Canada : John Wiley & Sons Inc.

Yonggang, Liu, Li Fangpo, Xu xin, Yang biyu, Lu caihong. 2011. *Simulation Technology in Failure Analysis of Drill Pipe*. Research Institution Of Tubular Goods of CNPC.
